

10 mm POLYMER DOME

4 Ω

CAR LINE

Hi Fi automotive specific design
Balanced drive concept design*
 Ferrofluid - cooled voice coil
 Extended frequency response
 Ultra-light moving parts
 Encapsulated magnet assembly

Application Hi Fi automobile
 Concept *balanced drive**
 Bobine refroidie par ferrofluide
 Bande passante étendue
 Equipage mobile ultra léger
 Ensemble magnétique surmoulé

Very compact, 10 mm polymer dome tweeter. Ultra light moving parts, formerless voice coil. Piston area equally composed of dome and active suspension (*Balanced drive* concept). Offers the Audiophile a combination of musical qualities : Spatial dispersion, exceptional transient response, high harmonics reproduction. Specifically designed for use in a 2 or 3 way Hi Fi system in the automotive environment. Easily coupled with 1st order crossover as shown in Fig 1 or with 2nd order for increased power handling.

Très compact, ce tweeter à dôme de 10 mm en polymère doit l'extrême légèreté de son équipement mobile à sa bobine sans support. La surface émissive est équilibrée entre le dôme et la suspension active. Il offre à l'audiophile une conjugaison de performances musicales : dispersion spatiale, réponse impulsionnelle, reproduction des harmoniques supérieurs. Sa configuration le destine plus particulièrement au secteur automobile (tableau de bord, portières, ...) en complément d'un ensemble haute fidélité 2 ou 3 voies. Il peut être filtré au premier ordre comme proposé sur le schéma Fig 1 ou au 2ème ordre pour une augmentation de la tenue en puissance.
