The paper cone foam surround of this 8" bass midrange offers a combination of extended frequency response, low resonance and high sensitivity. Ideally suited for 2-way and 3-way systems. The high temperature 1" voice coil ensures excellent power handling capacity. The "Suggested applications" charts indicate various driver loads, including the box alignment used to measure the response curve (Vb REF). The response curves shown on the diagram indicate the predicted low end response of the driver in the suggested box volume (Vb) with suggested port (Dp-Lp).

Équipé d'un cône en papier et d'une suspension mousse, ce haut-parleur de 210 mm est idéal pour une enceinte 2 voies ou 3 voies de qualité et de bon rendement. Sa bobine haute température sur support aluminium lui confère une bonne tenue en puissance. Le tableau "Suggested applications" indique différents types de charge dont celui utilisé pour la mesure de la courbe de réponse (Vb REF). Les courbes publiées correspondent à la réponse dans le grave pour un volume (Vb) et une dimension d'évent donnée (Vp-Lp).
