9-Bit Transparent Latch

General Description

The 'FCT843A/B bus interface latch is designed to eliminate the extra packages required to buffer existing latches and provide extra data width for wider address/data paths.

FACT™ FCTA/B utilizes NSC quiet series technology to provide improved quiet output switching and dynamic threshold performance.

FACT FCTA features GTO™ output control and undershoot corrector in addition to a split ground bus for superior performance.

FACT FCTB features an undershoot corrector in addition to a split ground bus for superior performance.
